sWaP is a new concept in mobile communications to address the problem of leaving your phone at home, dropping it, losing it or not wanting to carry it in your pocket or bag.

sWaP watches include all the features you expect in a mobile; Bluetooth, high quality digital still and video camera with audio, microphone and voice recognition, MP3 and MP4 compatibility, FM radio and quality loud speaker. Generous internal memory and touch screen 1.5" crystal clear display make this a viable replacement or accompaniment to your regular hand held mobile.

sWaP are now sparking interest in the star studded world of celebrities, with individuals such as Dizzee Rascal, Jamie Cullum, Mark Ronson and the N-Dubz crew all sporting the latest fashion of **sWaP**
